Flowing forward

1.1 / Fitt pure

Innovative drinking water hose **certified KTW-A and DVGW W270**, and compliance with **European Regulation 10/2011 for food liquids passage (simulants A-B-C-D1)**. The hose has been certified at the German laboratory Hygiene Institute and complies with the strictest

German and European regulations of the food industry. FITT Pure, atoxic and patented plasticizer free, is **extremely flexible and resistant** thanks to the **TPE formulation** and the **NTS Plus mesh** that ensures **easy handling in all conditions, without knots and twists**.

TECHNOLOGY / CERTIFICATIONS

double helical mesh in polyester for food contact, no fold no twist

KTW-A: German certification for the passage of drinking water: certifies that there is no migration of substances from the hose to drinking water. Certified by Hygiene Institut.

DVGW: German drinking water certification obtained through a volumetric evaluation of the microbial growth on the hose filled with water. Certified by Hygiene Institut.

Certified for the passage of food liquids. Compliant with the EU Regulation 10/2011 for simulants A-B-C-D1
