fastening and drawstring

CARATTERISTICHE

Inspectable return air grille, complete with filter holder frame and filter, fixed in "automatic" retractable. "Automatic"= by magnets

Grille material: anti-condensation PVC

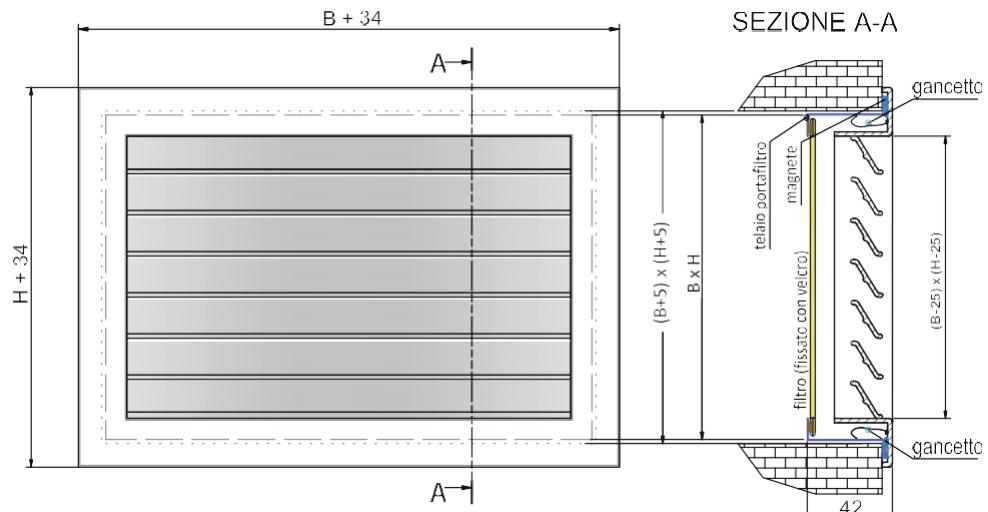

Filter holder frame material: Galvanized sheet metal, h=35 mm

Filter media frame material: Galvanized sheet metal, H: 35 mm
Filter: filter media made of polypropylene honeycomb stitched fabric, weight 135 gr/sqm

Grille color: White RAL 9010

- Example of -G/01 grille series for hole size on false ceiling 605x405 mm, inspectionable type, with filter, fixed in "automatic" and retractable: -GTF/06600X400B
- Example of -G/02 grille series for hole size on false ceiling 605x405 mm, inspectionable type, with filter, fixed in "automatic" and retractable:
-GTF/26600X400B
- Example of -G/03 grille series for hole size on false ceiling 605x405 mm, inspectionable type, with filter, fixed in "automatic", retractable: GTF/36600X400B
- Example of -GQ grille series for hole size on false ceiling 605x405 mm,: GTF/Q6600X400B

DIMENSIONAL

B x H : Frame
measurements
= Hole size - 5 mm

(**B** and **H** are the nominal grid measurements and correspond to the frame measurements.
Filter holder: the hole must be 5 mm larger to allow for its installation)

NOTE: For other technical characteristics, dimensional details and quick sizing table for grilles with filters see the Data Sheets of the respective grilles without filters (G/01, G/02, G/03 and GQ series).
