watering, cleaning
and leisure time.

yunigo™ unity

Your complete
retractable hose reel system

Thank you for choosing our Yunigo retractable garden hose reel.

Designed to provide a safe, comfortable, and efficient experience, it features the exclusive Slow Rewind mechanism that ensures smooth, controlled hose retraction without sudden pulls or whiplash effect. This not only enhances safety but also keeps your garden tidy and prevents damage during rewinding.

This all-in-one solution comes ready to use with a 70 or 100 ft braided hose, a 6 ft leader hose, a spray nozzle, and fittings—everything you need for hassle-free watering right from the start.

Your satisfaction is backed by the robust design and thoughtful features that make this reel a reliable addition to your outdoor space.

- Complete system

Yunigo Unity System

Retractable hose reel

Built with durable, impact-resistant materials and UV protection, the hose reel is engineered to withstand harsh weather and deliver long-lasting performance.

The reinforced resin wall mount, equipped with a stainless aluminum pivot, allows 180° rotation, so you can easily direct the hose exactly where you need it.

Spray nozzle

The sleek and versatile multiJet garden nozzle, designed for both style and performance.

Featuring 4 adjustable jet types—shower, jet, mist, and cone—it adapts to all your watering needs.

The ergonomic soft-grip handle with textured surface ensures a secure, comfortable hold, while the flow control lever allows effortless water adjustment and shutoff.

Built with a durable metal connector, this nozzle combines reliability with elegant design. Perfect for every garden!

Yunigo Unity System

Couplings

Anodized aluminium and crush-proof design makes the couplings corrosion resistant and very strong. High water flow.

TAKE CARE AND MAINTENANCE	
Yunigo Unity is intended for outdoor watering applications only.	Not to be used with hot water.
Do not leave under pressure when not in use.	Do not leave children unattended with Yunigo Freedom.
Do not leave outside in freezing temperatures.	Store indoors during winter/colder months.
Coupling protection: to avoid any kind of corrosion causing fusion between faucet and coupling hose, we suggest disconnecting and reconnecting the hose from any metal spigot at least 3 times per year.
